Scrum methodology

Work History

2021-03 - Current

Software Engineer

Decagon, Lagos

- I built projects with Java, Spring MVC, SpringBoot, REST, React, HTML, CSS and Javascript.
- I handled Database Management System with SQL like MySQL, Postgres.
- I have experience writing unit and integration test.
- **PROJECT**
- Safari Clothing App: Safari Clothing application is an e-commerce platform where a store owner can efficiently manage and advertise products online for interested customers to have easy access to buy and pay for them.
- Technologies Used: Java, SpringBoot, Restful API, Docker, Jira, Swagger, Spring Security, React, Microsoft Office.
- My Responsibilities.
- I created the end-point for an admin to add new product.
- Created the end-point to register a new user.
- Created the accessories page which displays the accessories sold by the store

with the name and price of each item, with functionality of filtering product search based on colour, size and price.

- Wrote highly maintainable, solid code for software system, forming core framework and earning consistent praise from subsequent developers since initial version.

2017-04 - 2018-06

Project Management Officer

Almond Careers , Lagos, Lagos

- Maintained and updated the RAID logs to keep track of project delivery, and ensured the project was delivered on schedule.
- Scheduled meetings such as risk, issues and change meetings to discuss the impact of certain eventualities to the project delivery.
- Maintained a daily log to keep track of project activities on a daily basis.
- I gave weekly reports on project status and documented these reports which were used as reference in subsequent projects.
- Assisted in gathering requirements, and designed work flow charts which aided in designing wireframes for projects.
- Contributed in brainstorming sessions for developing Business cases for projects.
- Modified and directed project plans to meet organizational needs.
- Drove team success through shared vision and recognition of quality performance.
- Defined clear targets and objectives and communicated to other team members.
- Communicated best practices among on-site and external personnel to align efforts and goals.

Education
